Aside from our traditional racing car decal sets, we now propose authentic-looking registration plate decals. For those, we have developed our own fonts, based on actual period plates, and have performed extensive researches to ensure maximum truthfulness. Ideal for those models of road vehicles sold without plates, or with only inaccurate registration!

En-dehors de nos traditionnelles planches de décals consacrées aux voitures de compétition, nous proposons à présent des décalcomanies de plaques d'immatriculation plus vraies que nature ! Pour celles-ci, nous avons développé nos propres polices de caractères, en nous basant sur des plaques d'époque, et avons effectué des recherches poussées pour assurer un maximum de fidélité. Idéal pour des modèles réduits de véhicules routiers vendus sans plaques, ou avec des immatriculations sommaires !
